No ()

Yes (x)

Code

Name of the curricular component / activity

TE0143

Economy for Engineers I

9. Day period of the curricular component (more than one option can be selected):

(x) Morning

(x) Afternoon

(x) Night

¹ Fill with *Bachelor (Engineer), Licenciante, or Technologist.*

² Fill with *Mandatory, Optional, or Elective.*

³ Fill when mandatory.

⁴ When elective, fill with the habilitation or emphasis to which the curricular component is linked.

10. Regime of the curricular component:

(x) Semester () Yearly () Modular

11. Justificatory for the creation/regulamentation of this curricular component

Notions of ethics and current legislation are fundamental to the good professional performance of engineers and other professionals who will act in an increasingly complex and demanding environment of behavioral, ethical, moral and legal standards. The full exercise of citizenship is undoubtedly a competitive differential of the professional in any area of knowledge and work.

12. Syllabus:

Ethics and citizenship. Social responsibility. The federal constitution. The civil code. Notions of commercial law, administrative law and tax law. The consolidation of labor laws.

13. Program:

1. **Ethics and citizenship:** concepts and usefulness of ethics; ethical theories; moral; applications of ethics concepts in companies and in professional and private life; Engineer's Professional Ethics (Code of Professional Ethics - CREA).
2. **Social responsibility:** social legislation; corporate social responsibility.
3. **Federal constitution:** state political and administrative organization; fundamental rights and guarantees; economic and financial order; social order.
4. **The civil code:** persons, property and legal facts; law of duties; law of companies; law of things; family law; inheritance law.
5. **Commercial law:** commercial societies; credit titles; business contracts; bankruptcies filing and bankruptcies execution.
6. **Administrative law:** administrative legal regime; public services; administrative acts and contracts; bidding; indirect administration, para-state entities and third sector; state restrictions on private property.
7. **Tax law:** tax principles; tributes; tax illicit.
8. **Consolidation of labor laws:** professional identification; work duration; salary; individual employment contract; safety and occupational health; protection of the work of women and children; work justice

14. Workload description

Number of Weeks:	Number of Credits:	Total Workload in Hours:	Theory Workload in Hours:	Practice Workload in Hours:
16	02	32	32	-
